PatientPartner™

Transforming Clinical Trials Through

Peer Engagement

Real Patients. Real Support. Real Results.

By matching prospective trial patients with real patients who've experienced the same journey, we bridge the gap between patient uncertainty and informed action, driving better outcomes across the board.

Why Peer Support Matters

- Patient Experience: **70% of trial patients** express interest in peer support
- Trial Consent: Patients with peer partners report a **greater understanding** of the consent process
- Adherence: Peer supported patients show a **22% increase in adherence**
- Site Efficiency: **40% of site time spent on emotional support** and patient questions can be offloaded through **mentorship**

The Patient Partner Platform

A compliant, scalable solution for peer-based engagement:

Feature	PatientPartner	Traditional Recruitment	Patient Ad Board
Scaled, Authentic Patient Voice	√	X	X
Compliant Communication	√	√	√
Real Time Trial Experience Alerts	√	X	X
Dynamic Patient Journey Intelligence	√	X	X
Ongoing (in trial) Patient Support	√	X	X

Proven Impact

70,000+ PATIENT MENTEES

1,000+ TRAINED MENTORS

100+ HEALTH CONDITIONS SUPPORTED

ISO 27001 CERTIFIED, HIPAA-COMPLIANT, PHARMA-APPROVED

An Illustrative Trial Engagement Timeline

Dialogue is both mentor and mentee led, with realtime support available.
Mentors can proactively assist during burdensome study visits, mentees can seek emotional support as needed.
