REAL INFORMATION FROM REAL PATIENTS

PatientPartner[™] empowers and educates patients by providing personalized one-on-one support through relatable experiences.

George Kramb, CEO

Patrick Frank, COO

Brief History

Hi, I'm George, co-founder and CEO of PatientPartner™. Throughout my career, I helped surgeons in the operating room and made sure the products they were using were utilized properly. I helped with hundreds of operations, but it wasn't until I spoke with a few patients that I realized how anxious and fearful they were about surgery. This led my co-founder, Patrick and I to start PatientPartner™ with the goal to connect patients with one another and get support from someone relatable. We want to help patients going through this stressful time in their lives.

Mission

PatientPartner™ is a patient advocacy program that gives patients the opportunity to have a one-to-one conversation with a recovered patient who understands what they're going through. This program provides support and empowers patients to go through with their surgery. PatientPartner™ not only gives patients the ability to learn from others, but it also gives physicians the ability to provide the best patient experience.

Vision

Transform healthcare by bringing support and empower every patient that is going through surgery.

Benefits

Who needs PatientPartner™ and how do we serve them?

CURIOUS CARL

I have surgery booked but am unsure of what to expect. I have done all the research but want to know what other people have gone through. You will help me make the right decision.

RESEARCHER RON

I just found out surgery was needed or is the optimal option for my condition. I want to be well informed and gain as much research as possible. You will help me feel confident that I have the best options and care provided for me.

OPEN-MINDED OLIVIA

I am looking for alternatives to help me with my issues/pain. Is surgery an option for me? I don't know where to start researching for the information that I need. You'll help me take the first step in my research and answer personal questions found nowhere else.

Logo Variations

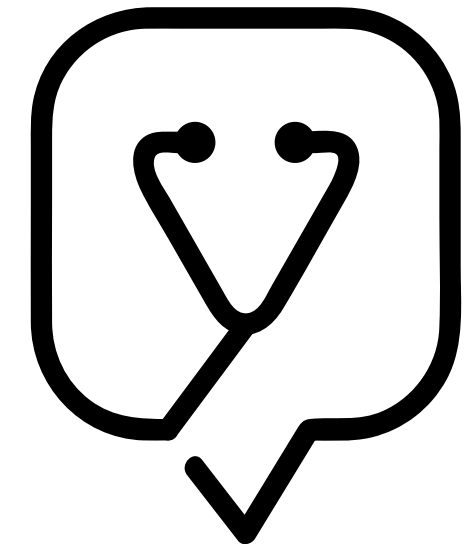

Main Horizontal Logo

This is the primary logo. The logo must be resized proportionately, never stretched. The Logo can be used in black on light background, or white on dark background, or in contrasting brand colors.

Main Vertical Logo

Brand Stamp

Clear space is the area surrounding our brand the stamp that must be kept free of any text or graphic elements. By leaving space around the logo, we make sure it stands out on all our communications. The minimum clear space is 100% of the height of the entire graphic element. It is sometimes necessary to increase and decrease the element depending on the print area.

Color Guidelines

Predominant design palette

The blue sets us up as intelligent, medical, and friendly with the warm detail palette balancing happiness and welcoming to the mix. When all working together, the palette brings a very hospitable and intelligent tone to the brand.
